

Dogs2Vets Program

The Dogs2Vets program is designed to provide professional support, instruction, and advocacy for veterans with post-traumatic stress disorder (PTSD) or military sexual trauma (MST) who wish to train their own psychiatric service dog.

Unlike conventional service dog training programs, which provide a person in need with a fully trained dog, we have adopted an owner-trainer model. Our goal is to provide ongoing professional instruction and guidance to the veteran-dog team so that the veteran learns to train his/her own dog.

Veterans will benefit from the Dogs2Vets program in more ways than one: not only will dogs provide veterans with emotional support and companionship, they will also promote interaction with the public and perform specific work/tasks that will help the veteran in his/her that is integral to the recovery process. Upon completion of the program, our hope is that our veteran participants will be equipped with certified psychiatric service dogs to help them navigate the difficult reintegration into civilian life.

How You Can Help

Donate

Fundraising will be critical to the success and expansion of Clear Path for Veterans. Your donation will be used to cover operating expenses of our Dogs2 Vets program or to fund one of our priority expansion projects:

- On-site caretaker's home for D2V
 - Commercial grade kitchen for an on-site, veteran-run restaurant
 - Fenced in outdoor free play area for dogs
 - Overhaul of existing dysfunctional pool
- Donate by mail, in person, or on our website.

Volunteer

Clear Path is in need of volunteers to help with site improvements and fundraising activities. Please contact us if you would like to be placed on our volunteer list

Foster a Dog

Until we are able to build an on-site caretaker's home, our Dogs2Vets program must rely on outside foster homes to accommodate our carefully selected dogs before they are matched with a veteran. Please call for more information on our foster program.
