

CRYOMECH

Machinist I – 2nd Shift

Cryomech is a Syracuse based high tech manufacturer. We are a recognized leader in the design and manufacture of a diverse line of cryogenic products serving the entire globe. We pride ourselves on maintaining a culture of teaching and learning. If you have the drive, we can teach you to do any job.

Position Summary

This position is responsible for the manufacture of parts of low production runs using manual machine tools. This is a trainee position; anyone in this position is being trained including apprentices.

Essential Duties and Responsibilities

- Sets up and operates manual machines to complete work orders
 - Ensures precision is maintained in all machining tasks
 - Inspects parts according to policies and procedures
 - Makes and/or modifies tooling if necessary
 - Monitors and records inventory used (tooling, supplies and raw materials) and notifies appropriate personnel
 - Qualifies measuring tools on a daily basis and as needed during the shift
- Cleans machine, tooling, and parts and performs machine maintenance as required
- Other duties as assigned

Qualifications and Education Requirements

- High school diploma or GED with 1+ years of proven machining experience; or one-year certificate with six months of machining experience; or equivalent combination of education and training
- Ability to set and use measuring tools.
- Ability to read and understand blueprints (GD&T a plus)

Employee Benefits

- Cryomech offers a generous benefits package including health, dental, vision, 401K, long and short-term disability, life, employee stock ownership plan (ESOP), training, tuition reimbursement, and Paid Time Off (PTO).

Cryomech is an Equal Opportunity Employer. All qualified applicants will receive consideration regardless of disability status, veteran status, or any other New York State or federally protected characteristic.
